ANGGUN PERPATIH

Dear Hiring Manager,

I am writing to express my interest in the Senior Software Engineer position at your company. With more than 12 years of professional experience in software development since 2013 (plus earlier development experience dating back to 1995), I have developed strong expertise in designing, developing, deploying, and maintaining enterprise-level applications across banking, insurance, telecommunications, and fintech industries.

Throughout my career, I have worked extensively across both front-end and back-end development. I am experienced with .NET Framework for maintaining and enhancing legacy applications, as well as .NET Core 2.1, 3.1, and .NET 6/8/10 for developing modern Web APIs, microservices, and cloud-native applications. My background also spans database design and optimization, cloud integration (Azure and AWS), DevOps practices, and application modernization using Microsoft technologies and cloud platforms.

Most recently, as a Team Lead at BNI 46, I led the delivery of mission-critical banking platforms — including an AML workload-analysis dashboard, a branch anomaly-transaction monitoring system, and an Operational Risk Management (ORM) and Business Continuity Management (BCM) platform built to Basel requirements. These projects required close collaboration with cross-functional teams, careful architecture decisions, and hands-on mentoring of junior developers.

I am confident that my technical expertise, leadership experience, and strong problem-solving skills would make me a valuable addition to your engineering team. I would welcome the opportunity to discuss how my background and experience align with your organization's goals.

Thank you for your time and consideration. I look forward to hearing from you.

Sincerely,
Anggun Perpatih

TECHNICAL QUALIFICATIONS

Front-End Technologies

Languages & Markup: C#, VB.NET, JavaScript, TypeScript, HTML5, CSS3

Frameworks & Libraries: ASP.NET Web Forms, ASP.NET MVC (Razor views), React.js, Angular / AngularJS, Vue.js, jQuery, AJAX

UI & Styling: Bootstrap, responsive/component-based UI design

Back-End Technologies

Frameworks: ASP.NET Framework, ASP.NET Core (.NET Core 2.1 / 3.1, .NET 5–8/10), ASP.NET MVC, C#, VB.NET

APIs & Real-Time: RESTful Web API development, JWT Bearer authentication, SignalR real-time communication, Swagger/OpenAPI documentation, CORS configuration

Data Access & Architecture: Entity Framework, LINQ, Clean Architecture, Microservices Architecture

Database Technologies

Databases: Microsoft SQL Server, Oracle Database, GraphQL

Data Objects & Tuning: Stored procedures, views, functions, SQL Jobs, query optimization, database indexing, clustering, partitioning, performance tuning

Development Tools

IDEs & DB Tools: Visual Studio, Visual Studio Code, SQL Server Management Studio (SSMS), MySQL Workbench

Source Control: Team Foundation Server (TFS), Visual SourceSafe, Git, GitHub, GitLab, Bitbucket, Tortoise SVN, Tortoise Git

Cloud Platforms & DevOps

Microsoft Azure: Azure DevOps, CI/CD Pipeline Automation, Azure App Service, Azure SQL Database, Azure Functions, Azure Storage, Azure Key Vault, Azure Monitor, Application Insights, Azure Active Directory (Microsoft Entra ID), Azure Kubernetes Service (AKS)

Amazon Web Services: Amazon EC2, Amazon S3, AWS Lambda, Amazon RDS, Amazon ECS / Fargate, Amazon SQS, Amazon SNS, AWS IAM, Amazon CloudWatch, AWS AppSync, AWS AppStream, AWS CodePipeline, AWS CodeBuild, AWS CodeDeploy

Infrastructure & Deployment: Terraform Enterprise (Workspace Management), IIS Administration, Windows Server 2008 / 2012, CI/CD Automation, Cloud-Based Application Deployment

PROFESSIONAL STRENGTHS

- Enterprise Application Development
- Software Architecture & Design
- Cloud-Native Application Development
- System Integration
- Performance Optimization
- Database Optimization
- Secure Coding Practices
- Troubleshooting & Production Support
- Technical Leadership & Mentoring
- Agile/Scrum Development

Throughout my career, I have successfully delivered scalable, secure, and maintainable business applications while collaborating closely with cross-functional teams. I have also contributed to system modernization initiatives, cloud migrations, process improvements, and mentoring junior developers to improve overall team performance.

CURRICULUM VITAE

a. Name : Anggun Perpatih

b. Country : Indonesia

c. **Work Experience / Project Experience**

No	Pekerjaan[1)]	Ruang Lingkup[2)]	Tahun[3)]	Jabatan
1.	Digital Mitra Sarana	Jobdesk: Developt Bak Loan Application for Jtrust, Panin, Muamalat Project: Loan Application Tools: Jquery, ASP core 8MVC.Net, oracle,SQL server, ssis For Feeding data from another Data transaction, SSRS For Report, github	2026	Team member
2.	BNI 46	Jobdesk: Create Dashboard Web Aplication for analyze workload distribution across IT employees to ensure balance and avoid overwork or underutilization. Methodology: collected daily activity data, classified work (Administrative, Development, Support, Meetings), calculated effective weekly working hours, and evaluated workload percentage to produce staffing and capacity recommendations base on jira user story Project: AML DASHBOARD Tools: Jquery, ReactJS,ASP Net core 8 web api full rest json with jwt oauth2 token, oracle,SQL server, ssis For Feeding data from another division, SSRS For Report, github	2025	Team Lead
.	BNI 46	Jobdesk: Developed modules to track non-financial transactions, detect anomalies, identify the top 10 risky branches, teller anomaly risk, 30-day anomaly trends, and branch-level anomaly distribution, including Branch Event Monitoring, Branch Anomaly Transaction Monitoring, Cash Outlet/Teller/Transit Reports, GL Transaction Report, and Dimension Account/Branch/Product/Teller Reports. Project: Branch Event Monitoring Dashboard Tools: Jquery, ReactJS,ASP Net core 8 web api full rest json with jwt oauth2 token, oracle,SQL server, ssis For Feeding data from another division, SSRS For Report, github	2025	Team Lead

.	BNI 46	Jobdesk: Develop Web Aplication Developed ORM & BCM solution applications in accordance with Basel requirements, regulatory standards, and best practices, meeting BNI's minimum capability standards. Modules developed: Risk Control Self Assessment (RCSA), Loss Event Database (LED), Key Risk Indicator (KRI), Business Continuity Management (BCM), Analytics & Reporting, and Admin Capabilities. for all BNI base on jira user story Project: PERISKOP Versi 2 Tools: angularjs, ASP Net core 8 web api full rest json	2024	Team Lead
	BNI 46	Jobdesk: Develop Web Aplication For Developed ORM & BCM solution applications in accordance with Basel requirements, regulatory standards, and best practices, meeting BNI's minimum capability standards. Modules developed: Risk Control Self Assessment (RCSA), Loss Event Database (LED), Key Risk Indicator (KRI), Business Continuity Management (BCM), Analytics & Reporting, and Admin Capabilities. for all BNI base on jira user story Project: PERISKOP Versi 1 Tools: ASP Net framework 4.8, web api full rest json with jwt oauth2 token, SQL server, github	2023	Team Lead
		with jwt oauth2 token, SQL server, ssis For Feeding data from another division, SSRS For Report, github		
3	Sampurna	Jobdesk: Develop web application for Undian Project: Undian Application Tools: Jquery, ReactJS,ASP Net core 8 web api full rest json with jwt oauth2 token, oracle,SQL server, azure Pipeline cicd, azure respository	2023	Team Lead
4	LINKNET	Jobdesk: Develop web base application for internal Linknet base on confluence Project: Dashboard Customer Linknet Jquery, ReactJS,ASP Net core 8 web api full rest json with jwt oauth2 token, oracle,SQL server, aws cloud	2022	Team Member
5	LINKNET	Jobdesk: Develop web base application for internal Linknet base on confluence Project: Linknet web Application Jquery, ReactJS,ASP Net core 8 web api full rest json	2022	Team Member

		with jwt oauth2 token, oracle,SQL server, aws cloud		
6.	Manulife	Jobdesk: Develop web base application for internal Manulife base on Jira user story Project: Manulife Jquery, ReactJS,ASP Net core 8 web api full rest json with jwt oauth2 token, oracle,SQL server, aws cloud, ssis for feeding data execute by sql server jobs, ssrs for reporting service	2021-2022	Team Member
7	Acenture	Jobdesk: Develop web base Gambling application for singapure Client base on Jira user story Project: Gambling App Jquery, ReactJS,ASP Net core 8 web api full rest json with jwt oauth2 token, oracle,SQL server, aws cloud,ssis for feeding data, ssrs for reporting service	2021-2022	Team Member
8	Abhimantra	Jobdesk: Develop web base for Dirjen Mineral dan Batu Bara base on confluence Project: DIRJEN MINERAL DAN BATU BARA Jquery, ReactJS,ASP Net core 8 web api full rest json with jwt oauth2 token, oracle,SQL server, aws cloud	2019-2020	Team Lead
